Hire a tutor

 **Experienced Tutor | University of Geneva | MSc in Biotechnology**

I have an MSc in Biotechnology from the University of Geneva and a BSc in Biology from ETH Zurich. With over 12 years of tutoring experience, I specialise in IB Biology, IGCSE Biology, and A-Level Biology. My goal is to help students master key concepts and reach their academic potential.

Teaches: IB Biology A-Level Biology IGCSE Biology GCSE Biology

Curriculum: IB A-Level GCSE IGCSE AP

Qualifications

University of Geneva: MSc in Biotechnology (2016–2018)

ETH Zurich: BSc in Biology (2010–2014)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the past 12 years, I've worked with students across Switzerland and internationally, helping them master IB and IGCSE Biology. My sessions are structured to support students with curriculum-specific content, while also focusing on exam preparation and building their confidence in the subject.

In addition to my work in IB and IGCSE Biology, I have supported students in A-Level and GCSE curricula, offering detailed feedback and personalized worksheets that reinforce their understanding of complex biological concepts. My experience working as a project associate in biotech labs has enriched my teaching with practical insights, helping students connect theory with real-world applications.

I am passionate about guiding students through every step of their academic journey, from understanding foundational biology to excelling in advanced coursework. Many of my students have achieved high marks and moved on to study biology at leading universities.
