**Nanyang Technological University:** BSc in Mathematics (2006–2010)

## Vetted Tutor

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

I have been tutoring for over 12 years, focusing on students pursuing IB, A-Level, and IGCSE Maths. My students come from diverse backgrounds, and I have helped them achieve excellent results, particularly in complex areas like calculus and algebra. I specialise in ensuring students grasp difficult concepts and apply them effectively in their exams.

Throughout my career, I have also guided students through AP Calculus, enabling them to strengthen their mathematical foundations and build the skills necessary for higher education. My tutoring experience spans across various curriculums, making me adaptable to each student's unique needs and learning style.

I've worked with students at different levels, from high school to university, supporting their journey to academic success. Many of my students have gone on to secure placements at top universities, with a strong understanding of maths that prepares them for advanced studies.
