University of Oxford: PhD in Marine Biology (2010–2014)

Imperial College London: MSc in Zoology (2006–2008)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With 10 years of experience, I've taught IB Biology and Environmental Systems & Societies to both HL and SL students. I've also worked extensively with A-Level and IGCSE Biology students, guiding them through complex topics and ensuring they are well-prepared for their assessments. My students have consistently achieved high scores and gone on to pursue careers in the sciences.

In addition to my role in IB Biology, I have coordinated science departments and supervised student projects. My experience working in international schools has helped me adapt to different learning styles, ensuring each student is supported on their academic journey.
