Tutoring Experience

For the past decade, I've worked with students from various countries, guiding them through IB, A-Level, and IGCSE Maths. I focus on helping students gain a strong understanding of algebra, calculus, and probability, ensuring they feel confident approaching exams.

My experience includes working with high school and middle school students on international curriculums, providing them with a foundation that carries them into advanced studies. Many of my students have gone on to attend top universities worldwide.
