Tutoring Experience

Over the past 6 years, I've worked with students from across Asia, helping them excel in IB and A-Level Chemistry. My experience spans a variety of curriculums, allowing me to tailor my teaching to meet the specific needs of each student, ensuring they build a strong foundation in chemistry.

In addition to IB and A-Level, I've taught IGCSE Chemistry and guided students through the AP curriculum, helping them develop critical thinking and problem-solving skills. Many of my students have gone on to attend top universities, excelling in their chosen fields.
